

# ONE-STOP PD SHOP

## 6. FaciliSkills™

Available for \$35 per workshop participant, with a \$125 facilitator guide for all four workshops, this one-of-a-kind program reveals the secrets of the art of people facilitation. Each of the four, six-hour workshops focuses on key related skills which address:

1. Making the SMART Connection, 2. The Art & Science of Self-Mastery, 3. Transformational Leadership, and 4. Logistics and Process Dynamics.

FaciliSkills™ teaches that it's "collaborative relationships" which open doors and allow people to work together. The contemporary manager and leader is a facilitator...specially equipped to lead others through both the journey and the process of problem solving and decision making. FaciliSkills™ creates breakthrough levels of trust that can transform a group into a decision-making team. With enhanced performance, cycle times are shortened and costs are reduced. Energy becomes synergy and a new can-do culture emerges. It's time to end unproductive meetings. It's time to end the seemingly constant struggle of getting people to come together and make decisions.

FaciliSkills™ will show you how.
